

## MDSA Projects Featured in Several Book Publications

***Building Great Schools for a Great City***, published in 2019 by ORO Publication. The book includes the New York City School Construction Authority's (NYCSCA) listing of some of its most innovative school projects. MDSA is featured in the publication with five public school projects:

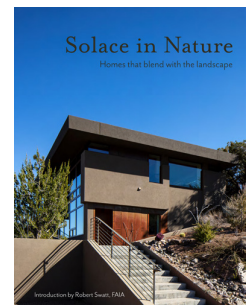

- Pre-K Center 613, Brooklyn, <http://mdsnyc.com/projects/pre-k-center-613/>
- PS 340 Sixth Ave. Elementary School, NY, <http://mdsnyc.com/projects/ps-340-manhattan/>
- PS 96 Richard Rodgers Addition, Bronx, <http://mdsnyc.com/projects/ps96-bronx/>
- PS 13 Clement C. Moore Addition, Queens, <http://mdsnyc.com/projects/ps13-queens/>
- PS 66, Brooklyn, <http://mdsnyc.com/projects/ps66/>

The New York City School Construction Authority and Department of Education serve the largest public school system in the country, providing high quality, safe and sustainable learning environments that encourage education. ***Solace in Nature, Homes that Blend with the Landscape***, with introduction by Robert Swatt, FAIA, is soon to be released by the Images Publishing Group. The book features dozens of modern architecturally designed homes that are beautifully integrated in their natural landscape. The richly illustrated pages are filled with homes that display high-end contemporary design and includes architectural designs from across the globe, illustrating how design complements nature and climate. MDSA's design of Morning Sky House and Stable is featured in the book.

***Architects' Homes***, edited by Bethany Patch, published in 2017 by the Images Publishing Group. This beautiful book provides a rare glimpse into the unique homes of some of the world's best-known architects. It explores the interior design techniques, art and decorative pieces, furnishings, materials and technology incorporated into the architects' homes. The book combines rich photography and spectacular imagery with personal stories. MDSA is honored to have its design of Morning Sky House and Stable included among these leading architects.

***Adaptable Architecture, Theory and Practice***, by Robert Schmidt III and Simon Austin, published by Routledge. *Adaptable Architecture* provides thought-provoking insights into how to prolong the useful life of buildings by designing them to be more adaptable, and create a more sustainable built environment. The book provides a theoretical foundation counterpointed by the experiences and ideas of those involved in the design and use of buildings. It explains many approaches to designing for change, with lessons from history, and case studies. MDSA's project PS 340 is featured as a case study in the book. <http://adaptablefutures.com/?s=PS340+>
